

Dec 2023 -
Present

UX/UI Designer | Quallie.Ai - UK Software development | Remote

Compiled existing research identifying key problems and touchpoints. Performed heuristic evaluation on the initial version. Worked daily with the founders and briefly with a freelance Senior Designer to enhance usability. Prototyped the onboarding process and redesigned all pages. Implemented strategies to effectively communicate the platform's value, such as maintaining visual consistency in colours, typography, icons, buttons and menus.

Main achievements:

- Developed brand guidelines and a component library using Figma.
- Successfully launched the 3rd version of the software.

Recognised as employee of the month (April) for excellent performance.

Jun 2024

Green Digital Skills Certification | INCO Academy
