Juliano Ribeiro

Database Specialist @Vivo | Oracle Certified Professional
Rio de Janeiro, Brazil

Summary

As a Database Specialist at Vivo, the largest telecommunications company in Brazil, I am passionate about improving the performance, security, and reliability of the data storage and databases that support business operations and customer services. I have over six years of experience managing and optimizing Oracle databases, including single instance and RAC, on RedHat and Solaris operating systems, using OEM Cloud Control and other tools.

I am also proficient in SQL Server and MySQL databases, and I have completed multiple certifications and courses in Oracle RAC, BI, and data analysis. I enjoy learning new technologies and skills that can enhance my professional development and help me solve complex problems. I am proactive, dedicated, and collaborative, and I always strive to deliver high-quality solutions that meet the needs and expectations of the stakeholders. I aim to contribute to the growth and innovation of Vivo and the telecommunications industry.
