

Enrico Meira de Paula

Full Stack Developer

📁 Employment History

Auxiliar Instructor - Python at Huawei, Sorocaba

June 2024 — December 2024

Hired to help the main instructor on creating a Python Course for the starter classes, also was responsible for developing solutions used during classes for all the technological courses in our university.

🎓 Education

High School Technical Degree (SAD), ETEC Fernando Prestes (FATEC Extension), Sorocaba

January 2021 — December 2023

Graduated my high school in Systems Analysis and Development as one of the top 2 students, reason why I got my opportunity with Huawei.

Technologist, FATEC Sorocaba, Sorocaba

January 2024 — December 2025

📚 Courses

Expert Games , SuperGeeks

January 2018 — December 2023

★ Additional Information

Student Council Speaker - FATEC, Sorocaba

January 2021 — December 2025

This activity allowed me to significantly enhance and utilize my communication skills. I was responsible for effectively communicating all assets related to events within our university course, ensuring that all stakeholders were well-informed and engaged.

SCRUM Training - Itix Tecnologias, Sorocaba

December 2023 — December 2023

I had the privilege of attending an exclusive SCRUM training with the Itix Software Team. During this training, I collaborated on project creation, organization, and competed against employees to identify and bridge gaps in my knowledge, thereby enhancing my project management and teamwork skills.

Project Leadership, Sorocaba

January 2022 — December 2022

At SuperGeeks, I led a team of four developers, where I was responsible for the creative direction, documentation, and decision-making for the game we were developing. This role provided me with a valuable opportunity to test and refine my leadership and project management abilities.
