### PROFILE

I am a software developer with professional experience in Back End Development. My expertise includes Python, C# and mainly Java. I possess entry-level proficiency in Docker and am enthusiastic about learning new tools and technologies. With a strong attention to detail, dedication, and motivation, I excel in collaborative team environments. I am also a Linux enthusiast and lifelong learner, continuously expanding my skills and knowledge in software development.

### PROFESSIONAL EXPERIENCE

#### Java Software Developer

Yank! Solutions

09/2022 – present  
Bauru, Brazil (remote)

Yank Solutions, a respected firm specializing in RPA, has a solid track record of over eight years in automating corporate processes.

In my role as a Java Software Developer at Yank Solutions, I focus on creating robots to automate business processes. I utilize a range of tools including Selenium, Sikuli, and UI Automation. Additionally, I demonstrate proficiency in Java frameworks like Spring and Hibernate JPA.

#### Junior IT Analyst

Sociedade Extrativa Dolomia Ltda

10/2020 – 09/2022  
Taubaté, Brazil (on-site)

Sociedade Extrativa Dolomia Ltda, a renowned mining enterprise established in 1935, is a leading supplier of raw materials to the paint and fertilizer industries in the nation.

In my capacity as an IT Analyst at S.E. Dolomia Ltda, my responsibilities encompass a diverse range of tasks. These include server maintenance for Linux and Windows systems, installation of Ethernet and fiber optic cables, documentation and execution of infrastructure optimization strategies, and software development to address specific challenges.

Additionally, I deliver user support, conduct maintenance on PCs operating on both Windows and Linux platforms, and manage the installation and configuration of security cameras.
