## OVERVIEW

I am looking for an opportunity to apply my passion for creating exceptional user experiences. I specialize in Front End Development (HTML, CSS, Javascript, VueJs, React.js) with a focus on clean and efficient code. I aim to contribute to the development of new products, tools, and the improvement of existing code. I am seeking an environment that values innovation, promotes diversity, and offers professional growth.

## PROFESSIONAL EXPERIENCE

For a full overview of my experiences, please visit [my LinkedIn](#).

- **Bellosoft, Brazil - Remote (March 2020 - Currently)**

**Roles:**

- Junior Front-end Developer I
- Junior Front-end Developer II
- Junior Front-end Developer III

**Stack:** Vue.js, JavaScript, Axios, JQuery, .NET Environment, C#, SCSS, BEM Standard, HTML.

**Accomplishments:**

- I develop digital solutions for agencies and companies in the UK and Australia using HTML, CSS, Vue.js, SASS, JavaScript, JQuery, and Webpack. I employ Atomic Design and BEM, utilizing Storybook for Design Systems and pixel-perfect for creating responsive layouts with mobile-first practices.
- I work on projects in C# within the .NET environment for MVC applications, SQL for databases, and integration with Rest and Restful APIs using Axios and Swagger API. I also have experience in integrating APIs with GraphQL and Apollo GraphQL. We adopt agile methodologies such as Scrum and Kanban, using the Azure DevOps platform for both project infrastructure and team management, with version control handled through GIT.
- I have made notable contributions to projects like Mortgage Propeller and AutoElite, optimizing performance with Vue.js, JavaScript, and SCSS, and implementing manual unit and integration tests.
- I am an effective communicator within multidisciplinary teams, specifically between design and dev team, promoting collaboration and commitment to professional growth. I am proactive in problem-solving.
- I have three months of experience as a contractor at UNRVLD, an Irish agency, maintaining and developing features for large projects using EPIServer, HTML, CSS, and JavaScript. Team management was carried out using the Scrum methodology.
- I have extensive skills in UX/UI design to prototyping user interfaces for internal and new projects using Figma, I also have skills in creating documentation for requirements analysis such as diagrams, and wireframes for new projects.

- **Amorim, Brazil - Remote (June 2021 - June 2022)**

**Roles:**

- Freelancer Front-end Developer and UI Designer

**Stack:** Nuxt, Vue.js, JavaScript, Wordpress, HTML, SCSS, Webpack, Figma.

### Accomplishments:

- I am a service provider focused on building websites and web systems, dedicated to small and medium-sized businesses, digital agencies, and product designers, committed to transforming ideas into engaging digital experiences.
- I build projects with good performance, accessibility, SEO, and following principles like mobile-first, BEM, and ensuring pixel-perfect accuracy.
- Working on various fronts, I contributed to the creation of a design system for mindline.sg in collaboration with a creative director, which helped me gain a systemic view and apply this practice in front-end development to build scalable applications.
- I perform services in both design and development, skilled in translating creative concepts into functional and visually impressive websites using technologies such as Figma, WordPress, Nuxt.js, Vue.js, HTML, CSS/SCSS, and JavaScript.

## TECH SKILLS

*For a full overview of the technologies I know please check my [LinkedIn](#). Here it's only my preferred ones.*

- HTML
- JavaScript
- Vue.js
- CSS / SASS
- Axios
- GraphQL
- API Rest and Restful
- Swagger API
- Responsive Web Design
- Git
- SQL
- Figma
- Webpack
- Nuxt.js
- C#
- .NET Environment
- Azure DevOps

## SOFT SKILLS

- Ability to Work Independently
- Creativity
- Empathy
- Teamwork
- Proactivity

## LANGUAGES

- Brazilian Portuguese (PT-BR): Native
- English (EN): Professional (B2)

## EDUCATION

### Software Engineering Bachelor Degree

Catholic University from Salvador, Salvador - Brazil (01/2024 - 01/2028)

### Software Development Technical Course

SENAI, Salvadori - Brazil (01/2018 - 06/2019)

## AWARDS / ACHIEVEMENTS

- 1st Place Team, out of 22 teams, at WKO and Advantage Austria Hackathon Competition (2023) as UX designer

and front-end developer with a pay-winner award trip to Austria.
