EXPERIENCE

Bosch Brazil | Digital Solutions apprentice

Curitiba, Brazil | August 2023 - August 2024

As a Digital Solutions Apprentice at Bosch, I am engaged in a **dual-learning program** that involves both theoretical and practical training. My mornings are dedicated to pursuing a **technical degree in System Development at SENAI**, where I gain knowledge in various aspects of digital solutions. In the afternoons, I continue my learning journey at **Bosch**, participating in a **System Development course tailored by the company**.

Throughout this program, I have been exposed to a wide range of topics including the **Internet of Things (IoT)**, **front-end and back-end development**, **databases**, and **more**. This experience allows me to develop a comprehensive understanding of the digital landscape and equips me with the necessary skills to excel in the tech industry.

SKILLS

Programming Languages: Java, Python, C, Html, CSS

Libraries/Frameworks: JavaScript, Spring

Tools / Platforms: Git, VS Code

Databases: SQL
