Brief

As a young software engineer, I am deeply committed to the technology industry, constantly seeking opportunities to expand my knowledge and share my expertise with others. I possess extensive hard skills in fullstack development, with a focus on the innovative use of SAP Commerce Cloud to build high-performance, resilient eCommerce applications.

In addition to my technical expertise, I possess exceptional soft skills, including leadership capabilities, effective communication, creative problem-solving, and critical strategic thinking. Whether working individually or as part of a team, I take pride in fostering an environment of mutual respect and collaboration, inspiring and guiding teams to achieve shared goals. My unwavering commitment to excellence and extensive skill set enables me to deliver great results that meet expectations while continuously seeking new challenges to grow and develop personally and professionally.

Professional Experience

Senior SAP Commerce Cloud Developer | Lojas Renner S.A.

Feb 2023 - Current • Remote

At Renner, our team bootstrapped a new e-commerce B2C environment with SAP Commerce Cloud 2211 and Spartacus from scratch, starting from the architecture and data modeling, third party integrations and all sorts of customizations to attend all business needs, from new pages, customized promotions to impex decorators, OCC APIs and backoffice modifications.

Senior SAP Commerce Cloud Developer | All For One Group

Sep 2022 - Feb 2023 • Remote

At All For One, our team was small but highly experienced, and we worked on a product with multiple requirements for clients in both backend with SAP Commerce Cloud 2205 and frontend with Spartacus versions 4.x and 5.x, for example [Blaser](#). As a key team member, I was involved in **all major technical decisions** and played a critical role in shaping the products with my technical insights. Our team was geographically distributed, which has enabled us to develop a wealth of experience in **asynchronous processes and discussions**.

SAP Commerce Cloud Developer | Perficient

May 2021 - Aug 2022 • 1 yr 2 mos • Remote

At Perficient, worked at [Belcorp](#) project, a huge SAP Commerce 1905 with base stores working in 7 countries and 3 base sites for each store. My main assignments were to create, implement and document new solutions based on customer requirements developing new features or fixing bugs in both backend and frontend(Spartacus), also creating integrations and unit tests to ensure software quality.

SAP Commerce Development Consultant | Accenture

Oct 2019 - June 2021 • 1 yr 8 mos • Recife, Brazil

At Accenture, I served as B2B's team architect, responsible for the development of the new B2B commerce platform from scratch, created integrations with external services soap/rest, technical documentation and designed solutions based on customer requirements on SAP Commerce Cloud 1905/2005.

Using: methodHooks, backoffice customizations, actions, interceptors, dynamic attributes, impex translators and more.

Curriculum Vitae

2023

IT Development Assistant | Real Hospital Português de Pernambuco

June 2018 - Oct 2020 • 1 yr 3 mos • Recife, Brazil

Worked on hospital management systems, focusing on Java development and PL/SQL to create custom data reports. Developed new functionalities, optimized system performance, and wrote complex queries to support business intelligence. Worked on SAP Commerce Cloud development, customizing modules and integrating data reports to enhance commerce operations. My efforts improved staff efficiency and provided valuable data for hospital departments.

Education
