Guilherme Zuccolotto

Head of Data & AI @ act digital | Driving Innovation with Data
São Paulo, São Paulo, Brazil

Summary

With over 15 years of experience in data and AI, I am passionate about transforming data into actionable insights and innovative solutions. As the Head of Data at act digital, I lead the organization's data and AI initiatives, overseeing talented teams, developing strategies, and ensuring data quality and governance. I collaborate with other departments to integrate AI solutions into products and services, and regularly communicate with executive leadership. My mission is to drive innovation and company growth by harnessing the power of data and AI.

Previously, I worked as a Data Manager and Data Tech Lead at CI&T, where I was responsible for building teams, developing data architecture, driving data science strategy, and collaborating with clients. I applied my skills in data analytics, data analysis, and skill development to deliver effective and innovative solutions. I also co-developed the technical strategy with the CDO and worked to ensure its execution. I have a strong background in applied mathematics, interior design, and credit risk management, and I hold multiple certifications and publications in these fields. I speak English, Spanish, and Portuguese fluently.

Experience

act digital

Head of Data

September 2023 - Present (11 months)

São Paulo, Brazil

As Head of Data & AI, my responsibility is to strategically lead the organization's data and artificial intelligence initiatives. I oversee talented teams, develop innovative strategies, and ensure data quality and governance. I collaborate with other departments to integrate AI solutions into products and services, and regularly communicate actionable insights to executive

leadership. My goal is to drive innovation and company growth by harnessing the power of data and AI.

I also oversee team processes, performance, career development, hiring, product delivery, stability, and data development best practices, and co-developed the technical strategy with the CDO and worked to ensure its execution.
