## SUMMARY

**Frontend Developer with over 9 years of experience** in crafting dynamic, user-friendly web applications using a wide range of technologies, primarily focusing on JavaScript and CSS. Expert in React, Next.js, and TypeScript, with a proven ability to build maintainable and scalable web applications. **Strong understanding of UI/UX** principles, ensuring optimal user experience in all projects. Former startup founder with a unique blend of business acumen and digital marketing expertise. Proficient in integrating APIs, utilizing modern frameworks, and adhering to agile methodologies to deliver high-quality, innovative solutions. Eager to contribute to a forward-thinking company that values innovation and collaboration.

## SKILLS

**Proficient:** Javascript, HTML, CSS, React, Next.js, Typescript, Node.js, MUI(Material UI), Tailwind CSS, Sass, Styled Components, Redux, React-query, jQuery, AdonisJS, Zustand, Jest, React Testing Library, Webpack, PHP, Laravel, Ant Design, AmCharts v5, Strapi (Headless CMS), Git, MySQL, PostgreSQL, ESLint, Prettier, Next-intl, WebSocket. Scrum, API Integration, RESTful API, Linux, Formik.

**Intermediate:** Angular 2+, AngularJS, Karma, Mocha, Chai, GraphQL, MongoDB, Nginx, AWS, Digital Ocean, Docker, Vercel, Vitejs, Vitest, Wordpress, Zod, React Hook Form. Figma, UI/UX, Digital Marketing, Graphic Design(Photoshop, Illustrator), Lean Startup, Design Systems.

**Beginner:** React Native, Remix, Prismic, Esbuild, Serverless, Ruby on Rails, Python, NestJS.

## PROFESSIONAL EXPERIENCE

### Software and UI Developer(Contractor)

Lucas Almeida Siqueira Consulting 📍Brazil – Remote

**Feb/2020 to Present**

- **TechLoto(2024):** Worked alongside another frontend developer to design and build the interface for a white-label Brazilian lottery website. Utilized Next.js (React.js), Material UI, Emotion, React-query, and Zustand.
- **Penzack (2023 to 2024):** Played a key role in developing the new investment solution, Homebroker. Created the main app's foundational structure, initial documentation, an internal UI components library, and conducted code reviews. Built the investment real-time chart and its elements. Utilized Next.js v13+ (React.js), TypeScript, MUI, Zustand, Tanstack React-Query, Next-intl, React Hook Form, Zod, Node.js, ESLint/Prettier, Gitflow, AmCharts v5, Vite, JIRA, and Kanban.
- **Alfabets(2022 to 2023):** Developed the frontend UI and API integrations for a white-label sports betting website. Successfully completed the frontend development, which is now in the pre-launch phase. Utilized Next.js (React.js), Material UI, Emotion, React-query, and Zustand.

- **Trivod(2022):** As part of the team at Infracommerce, revamped the administrative system of an e-commerce solution. Created new features and critical components using a micro frontends architecture. Utilized Next.js (React.js), Material UI, Emotion, React-query, and Zustand.
- **New Talk.ai Ltd(2021 to 2022):** Generated reports from an existing database for a mental health company in the UK. Developed the necessary infrastructure and code for report generation using PostgreSQL, Metabase, DynamoDB, Node.js, and AWS Lambda.
- **BlowLTD(2020):** Made adjustments to the website/blog and revamped the admin system for a UK startup. Designed wireframes and improved the user interface, resulting in a more user-friendly experience. Utilized React.js, HTML, CSS, Node.js, Prismic, and JavaScript.

## Frontend Developer

Gympass 📍 São Paulo, São Paulo, Brazil

**Jun/2018 to May/2019**

### Core Responsibilities:

- Maintained and developed new features for user account pages, ensuring a seamless user experience using JavaScript, HTML, CSS, React, Redux, and Node.js.
- Delivered a new feature that allows users to pause their subscription plans, enhancing customer flexibility and satisfaction.
- Led the development of a new HR Portal with a fresh architecture and user interface, improving internal user efficiency.
- Created initial pages using an existing SSR front-end boilerplate, streamlining the development process and ensuring consistency across projects.
- Launched a closed beta of the HR Portal, receiving positive client feedback and driving further improvements based on user input.

**Key Technologies and Tools:** Javascript, HTML, CSS, Ruby on Rails, React, Redux, Node.js (BFF layer), Styled-Components, Jest, and SSR(Server-side Rendering).

## Frontend Developer

PagSeguro 📍 São Paulo, São Paulo, Brazil

**Jul/2017 to May/2018**

### Core Responsibilities:

- Migrated the online checkout solution from a legacy system to a microservices-based architecture using React, enhancing system scalability and maintainability.
- Contributed to the project by implementing React, exploring bundling techniques, and conducting unit tests with Mocha and Chai.js, ensuring code quality.
- Gained valuable experience in React, bundling, and unit testing, despite the project's discontinuation due to strategic decisions.

**Key Technologies and Tools:** Javascript, HTML, CSS, React, Redux, Node.js, CSS Modules, Enzyme, Mocha, Chai.js and Webpack.

## Frontend Developer

MJV Technology & Innovation 📍 São Paulo, São Paulo, Brazil

**Jan/2017 to Jul/2017**

### Core Responsibilities:

- Developed a new internal system for Santander bank aimed at enhancing sales of the bank's investment products using Angular 4, TypeScript, and Node.js.
- Created both the client app and the BFF (Backend for Frontend) layer, contributing to initial pages, features, and components.
- Received positive feedback from project managers, indicating the project's successful progression and alignment with expectations.

**Key Technologies and Tools:** Javascript, Angular 4, Typescript, Material Design, Redux, RxJS, Node.js, and GraphQL.

## Fullstack Developer

Altum Tecnologia 📍 Fortaleza, Ceará, Brazil

**Apr/2013 to Dec/2016**

### Core Responsibilities:

- Designed the user interface (UI) and developed both the front-end and back-end of a wedding app project using Ionic 1, Cordova, and AngularJS.
- Successfully launched the MVP of the wedding app, enabling the company to initiate product validation and gather user feedback.

- Developed various small marketing applications, including features to integrate with the Instagram API for event posts and a video recording feature using FFmpeg to apply intros and frames, sending results via email.
- Created a feature that allowed users to record videos from a webcam and receive customized videos via email.

**Key Technologies and Tools:** Ionic 1, Cordova, AngularJS, Sass, Node.js, Parse-server (BaaS), JavaScript, jQuery, PHP, HTML, FFmpeg, CSS.

## Founder and CPO

Bome ♥ Fortaleza, Ceará, Brazil

**Jun/2014 to Jun/2015**

### Core Responsibilities:

- Founded a startup offering a SaaS solution to help merchants retain customers, using Ionic 1, Cordova, and AngularJS.
- Participated in a 6-month startup acceleration program, developing a mobile app for client loyalty programs and a web app (CRM) for managing loyalty programs and customer metrics with MySQL and Laravel.

**Key Technologies and Tools:** Ionic 1, Cordova, AngularJS, Sass, Node.js, MySQL and Laravel.

## Frontend Developer

Wsete Design ♥ Fortaleza, Ceará, Brazil

**Jan/2012 to Aug/2012**

### Core Responsibilities:

- I held the responsibility for front-end development across several business/institutional websites.
- My main task was to translate PSD layouts into functional and responsive front-end code.
- As a result of my work, these business websites were equipped with visually appealing and fully functional front-end interfaces that enhanced the overall user experience.

**Key Technologies and Tools:** jQuery, Javascript, HTML, CSS and Photoshop.

## EDUCATION

- Computer Engineering at UFC(Federal University of Ceará) - Incomplete;

## COURSES

- Course: SEO in Practice (How to generate business via the internet);
- Course: Web Design at S.O.S Computadores;

## LANGUAGES

- **Portuguese:** Native;
- **English:** Advanced (C1);
- **Spanish:** Basic.

## PORTFOLIO

*\*Unfortunately most of my recent and real experience was developing internal systems so I can't show them.*

*But here are some of my freelance/personal/fictitious projects:*
