I know why you don't use Typescript  
How to use async functions in JS

# Matheus Palma

Senior Software Engineer at @Webmotors | Vue, React, Stencil, Angular, Node.js, Typescript & English | +10 years exp  
Brazil

## Summary

With a decade of expertise as a Software Engineer, I bring forth a proficient skill set for developing sophisticated web applications utilizing a diverse range of technologies including but not limited to React.js, Vue.js, Node.js, TypeScript, Nuxt.js, Next.js, React Native, Ionic, Stencil, Svelte, SCSS, Tailwind, Gatsby.js and more..

My experience extends to continuous integration and deployment (CI/CD) processes, as well as cloud services like AWS, GCP and Azure, with a strong command of version control using GIT.

Experienced with Serverless and Headless applications.

Experienced with Node.js, PHP, .NET and Python on Backend.

---

## Experience

### Webmotors

Senior Frontend Engineer  
January 2024 - Present (6 months)  
São Paulo, Brasil

Working in the financial squad integration with @Santander

- Maintain and Developing new features using HTML, SCSS, React, Javascript, Node and Typescript
- Adding new DataDog dashboards with important metrics
- DataDog Agent configured along with a BFF ( backend for frontend ) for the Financial Web App with Custom Metrics
- Multiple important features delivered
- MicroFrontends added

Node.js · JavaScript · Git · Next.js · React.js · TypeScript · OpenSearch  
· AWS · AWS Elasticsearch · AWS Lambda · AWS RDS · AWS SQS ·

AWS Cloudformation · AWS Cloudfront · AWS Route 53 · AWS S3 · AWS  
DynamoDB · SOLID · Event Driven · Diagrams · Storybook · API Rest · .NET

## James Hardie

### Senior Software Engineer

August 2023 - January 2024 (6 months)

United States

I worked on the James Hardie project, where I had the opportunity to engage in various aspects of the project including E-commerce, blogging, and Request for Sample diagrams. I configured Lambda functions, storage, queues, communication services, and more on the Azure Cloud.

- Article Detail Page development
- Complex Product Configurator implementation with numerous rules
- Product Listing creation
- Request for Sample flow diagrams and implementation using Azure Functions, Azure Storage Queue, Azure Communication Services, and CyberSource payment gateway integration.
- Development of James Hardie Stories, similar to Instagram stories
- Execution of multiple GraphQL queries to Stepzen and Contentful to retrieve data.

Node.js · JavaScript · Git · Next.js · React.js · TypeScript · Tailwind · Contentful  
· Uniform.dev · Azure · Event Driven · Cypress · GraphQL · Apollo · Stepzen  
· PostgreSQL · Microsoft SQL Server · Diagrams · Storybook · API Rest ·  
Algolia

## Reconic

### Senior Software Engineer

June 2023 - August 2023 (3 months)

Germany

I worked for the Reconic project and as a Senior Software Engineer, I worked in the backend and frontend, developing the "full flow" of each feature of this amazing project that involves Waste/Recycling on Germany.

- Multiple components built using the best Vue 3 practices
- Features developed across the different kind of dashboards
- Created endpoints using Koa.js & Typescript
- Improved many facility flows with important features like Document Review and Element Classifications

Node.js · JavaScript · Git · Vue.js · Nuxt.js · TypeScript · Tailwind · Koa.js  
· MongoDB · WS · AWS · AWS Lambda · AWS RDS · AWS SQS · AWS  
Cloudformation · AWS Cloudfront · AWS Route 53 · AWS S3 · Event Driven ·  
Unit test · Cypress · State Machine · XState · Yup · E-mail marketing

## Storyblok

### Senior Frontend Engineer

November 2021 - June 2023 (1 year 8 months)

Austria

On Storyblok I worked on the Editor Experience Squad, so our focus was on the main Storyblok feature the Visual Editor, I had the chance to improve the existent features and also develop many important features and plugins for the Storyblok users.

Also I had the chance to work a bit side by side with the Dev Relations team, helping with support tickets from developers that use Storyblok and also creating documentation and examples in many different frameworks not limited to Svelte, React & Vue.

- Created components for the Design System using Vue and Storybook
- Added many features for the Site Editor
- Created a service of mocks to mock the API responses ( using docker, node and restify )
- Refactoring
- Added Typescript
- Worked with the Dev Relations team doing improvements and helping the customers on their implementations
- Technology presentation for the company community ( Typescript, Vue 3 and Svelte )
- Plugins created ( Content Locking and Auto-Save )
- Anchor Link feature added to the Rich Text
- Bug corrections in Vue 1 ( Older app version )

Node.js · JavaScript · Git · Vue 1,2 & 3 · Nuxt.js · TypeScript · Design System  
· Express.js · Docker · Relational DB · AWS · Unit test · Cypress · Vue  
Composition API · Vue Options Api · Vue 3 · React · React Hooks · Svelte ·  
Post Messaging · WebSockets · API Rest · GraphQL

## Grupo PRIMO

## Senior Frontend Engineer

January 2023 - April 2023 (4 months)

São Paulo

I had the challenge to build the new checkout page for the company, using new technologies, choosing the best technics and technologies.

- Created the application from the scratch using Vue 3 and Typescript.
- Created multiple components for the Checkout page
- Created the Checkout page
- Integrations to the API endpoints to get and send data
- Mobile First applied

Node.js · JavaScript · Git · Vue 3 · Nuxt.js · TypeScript · Design System · Docker · Relational DB · AWS · Unit test · Cypress · Vue Composition API · Vue Options Api · Vue 3 · API Rest · Checkout

## Empiricus

2 years 8 months

## Senior Frontend Engineer

November 2020 - November 2021 (1 year 1 month)

São Paulo, São Paulo, Brazil

I had the chance to write the first lines of the Checkout project, also I was the one that choose the Technologies used in the Project, at the begin was a big challenge because I was trying to introduce new technologies for the company like the Typescript, also I had the chance to lead the frontend on the company guild where I had the opportunity to share my knowledge across the teams showing the stack of our successful project.

- Created the application from the 0 using Vue 2 and Typescript.
- Created multiple components for the E-commerce Checkout and E-commerce CMS
- Integrations to the multiple microservices endpoints to get and send data
- Availability and Eligibility rule checks on the frontend side
- Dynamic rendering of specific components depending on the type of Customer ( renewal, purchase or order form )
- Automated Tests written in Cypress and Unit Tests
- Automated script to create bankslip renewals from the past payment gateway on the new one
- Mobile First (PWA)
- Meetings presented to the company ( Typescript, Vue 3, Svelte and more )

Node.js · JavaScript · Git · Vue 2 & 3 · Nuxt.js · TypeScript · Design System · Docker · Relational DB · WS · AWS Elasticsearch · AWS Lambda · AWS RDS · AWS SQS · AWS Cloudformation · AWS Cloudfront · AWS Route 53 · AWS S3 · Unit test · Cypress · Vue Composition API · Vue Options Api · API Rest · Microservices · Svelte · E-commerce · Landing Pages · Checkout

## Frontend Engineer

April 2019 - November 2020 (1 year 8 months)

São Paulo, Brazil

## EPIC DEPLOY | IT Consultant

Senior Full Stack Engineer

January 2020 - June 2020 (6 months)

My own consulting company focused on create Web, Mobile & Desktop applications from the zero, focused on Vue, React, Electron, React Native, Nuxt.js, Next.js, Gatsby.js, Node.js, Typescript, AWS and Serverless.

- Multiplicara Método Financeiro ( mobile app for Android & IOS published )
- AcolherMe ( donate platform )
- Grupo Primo ( e-commerce checkout )

And more..

## Helpay

8 months

Lead Frontend Engineer

December 2018 - April 2019 (5 months)

São Paulo, Brazil

Website with a Checkout with a strong UX for the mobile in special, in this project I was responsible to create the patterns and choose the technologies for the new Website and Checkout, also I had to teach and lead the developers to guarantee that everyone was in the same Page following the correct patterns.

- Development patterns defined
- Technology stack choosed based on the project needs ( React, Typescript )
- Endpoints created for the E-commerce Checkout page using Laravel PHP 7
- Multiple components written with React + Typescript

Node.js · JavaScript · Git · React · React Hooks · Gatsby · TypeScript · Design System · Relational DB · AWS · Unit test · Cypress · Vue 2 · API Rest · Laravel · PHP 7+ · E-commerce · Landing Pages · Checkout

### FullStack Developer

September 2018 - November 2018 (3 months)

São Paulo

### Pilha Digital

#### Senior Full Stack Engineer

January 2017 - September 2018 (1 year 9 months)

São Paulo e Região, Brasil

As a Full Stack Developer, I worked in many different projects with different sizes and technologies, In this company I was the unique developer, so I had a lot of responsibilities and work as well

Node.js · JavaScript · Git · React · Gatsby.js · Angular 2+ · TypeScript · Relational DB · AWS · Unit test · API Rest · Laravel · PHP 7+ · E-commerce · Landing Pages · Checkout · E-learning · E-mail marketing

### Twiser

#### Fullstack Developer

March 2016 - January 2017 (11 months)

São Paulo, Brazil

As a Full Stack Developer, I worked in many different projects with different sizes and technologies, In this company I was the unique developer, so I had a lot of responsibilities and work as well

Node.js · JavaScript · Git · Angular 2+ · TypeScript · Relational DB · Unit test · API Rest · Wordpress · PHP 5.6+ · E-commerce · Landing Pages · Checkout · E-learning · E-mail marketing

### Head Falcon

#### Software Engineer

January 2014 - April 2016 (2 years 4 months)

São Paulo, Brazil

I worked in many small projects, that was my first experience working directly with the customer and that was super helpful to me to understand better how the things really works

Node.js · JavaScript · Git · HTML · CSS · Relational DB · Unit test · API Rest ·  
Wordpress · PHP 5.6+ · E-commerce · Landing Pages · Checkout · E-learning  
· E-mail marketing

---
