## PROFILE

As a frontend developer with three years of experience, I've mastered TypeScript, React, Next.js, Svelte, and Astro. I've built intricate dashboards, dynamic landing pages, and robust platforms that perform seamlessly. While I thrive as a team player, I've also excelled as the sole frontend expert at my company. My proudest achievement? Slashing Google Maps API costs by 80% while delivering high-performance solutions that elevate user experiences and drive success.
