## Summary

Hello. My name is André and I'm a web developer from Curitiba, Brazil. Below is a brief summary of my latest activities:

I currently work as a freelancer for Ticket Sports, leading and developing management systems and dashboards for running events with React (Nextjs), typescript, node and deployed in Azure.

Before that, I worked on the Gympass payments team, using Nextjs as a frontend developer, working with several BFF services and implementing new integrations and international payments features.

About React:

Styled components and other css libraries, management states with redux, hooks (useReducer + useContext), Zustand, etc...

CSS:

Responsive design with flexbox, media queries, sass, less, scss, bulma, bootstrap, tailwind.....

Actually studying Web3 stack - solidity, ethers, hard hat, web3js, blockchain
