Profile

Software Engineer with **~5 years of experience**, focused on **front-end** but capable of contributing in all parts of the stack. I enjoy working closely to PMs and Designers in order to make users happy. **Main tools:** React, JavaScript, TypeScript, Node, Jest, React Testing Library, Firebase/Firestore

Experience

Software Engineer

Mercado Livre | Mar 2023 - Current

- **Front-end lead** and **technical reference** for my team, while also mentoring junior developers
- **Led the development** and was the main contributor of a new cancellation flow:
 - 96% of testing coverage
 - Real time with SSE (Server-sent events)
 - Established patterns and good practices on code reviews
- **Tools:** React, TypeScript, Node, Jest, React Testing Library, JavaScript, Go

Software Engineer

Hurb | Aug 2022 - Mar 2023

- **Front-end technical reference** for my team. I've helped to evolve the platform's front-end:
 - Led an initiative to start writing tests for the project
 - Investigated performance issues and implemented improvements (front-end & back-end)
 - Established patterns and good practices for the whole team
- **Tools:** React, Next, Jest, React Testing Library, JavaScript, PHP (Laravel), Node

Software Engineer

Pier | Jan 2022 - Aug 2022

- Helped to build and ship a major feature - it was the most important selling point of the product
- Was part of an initiative to add tests on the React Native app
- **Tools:** React, React Native, Redux, Next, Jest, React Testing Library, TypeScript, JavaScript, Node, Ruby on Rails

Back-end Engineer

Bento | Nov 2021 - Sept 2022 (Part time)

- Was responsible for the building and maintaining all of Bento's delivery platform APIs and also helped to build and maintain the front-end, reporting directly to the CTO.
- **Tools:** Nest, Node, Firebase/Firestore, Big Query, TypeScript, JavaScript, React, Next

Front-end Engineer

Serasa | Oct 2020 - Oct 2021

- **Led the development** and was the main contributor of a new login flow. I was able to go from: 0% to 90% of automated testing coverage; 12 to 100 on google lighthouse; 13,2 to 0,8 on speed index & largest contentful paint.
- **Tools:** React, Next, Jest, React Testing Library, TypeScript, JavaScript, Node

Full-Stack Engineer

Neomind | Oct 2019 - Oct 2020

- Worked mainly on bug fixing in legacy code and providing support direct to the customers
- **Tools:** JavaScript (AngularJS), Java, SQL Server, Oracle, Git
