SUMMARY

Software engineer with 1.5 years of experience of full-stack development experience, I specialize in React and TypeScript for frontend and .NET 6.0 with C# for backend. Skilled in system development and feature management I bring analytical problem-solving, fast learning, and strong communication to innovative projects.

PROFESSIONAL EXPERIENCE

Software Engineer - DBC Company

05/2023 – present

- Implemented a new system as a frontend developer, focusing on increasing user experience, efficiency, and simplicity by centralizing the user workflow. Reduced the time required to complete the same tasks from 6-7 hours to 1-2 hours.
- Experience with React, Typescript, Redux, Redux Toolkit, React Query.
- Used CSS libs and css-preprocessors: less, sass and styled-components.
- Developed features on existing API's with .NET 6.0, Dapper, EF Core and SQL Server.
- Familiarity using Domain Driven Desing and Clean Architecture Principles on implementing.
- Collaborated with cross-functional teams, backend developers and designers .

Frontend intern - DBC Company

01/2023 – 04/2023

- Selected for the Vem Ser training program, specializing in front-end development with a focus on React, TypeScript, Context API, Redux, Redux Toolkit, RTK Query, and unit testing with Jest and React Testing Library.
- Developed practical projects using advanced front-end technologies, gaining real-world experience in building and optimizing web applications.
- Collaborated on a team for a final project, centralizing communication and subscription processes by integrating email communications and Google Forms into a unified system.
- The system consistently receives over 1000 subscriptions on average during open enrollment periods.
- Integrated frontend applications with backend APIs.
- Applied UI/UX best practices to design intuitive interfaces, enhancing user experience and satisfaction.
- Delivered features and enhancements, directly contributing to the project's success and user satisfaction.

SKILLS

Technologies

- Front End: React, Typescript, Context API, Redux, Redux Toolkit, React Query, HTML, CSS, Styled Components, Sass, Tailwind.
- Back End: .NET, C#, Entity Framework Core, Dapper
- Database: Microsoft SQL Server, MySQL and Postgres.

EDUCATION

Computer Science Bachelor

4th period of Computer Science bachelor degree on Universidade Estácio de sá

PROJECTS

Convert Ease

05/2024 – 06/2024

- Developed an application for converting images, audios, and videos, utilizing Next.js 14, TypeScript, Zustand, FFMPEG WASM and Tailwind CSS.
- Designed a user-friendly interface with drag-and-drop functionality.
- Conducted user testing sessions and collected feedbacks.
