Summary

As a seasoned software engineer, I have had the privilege of working on every part of the development process, from ideation to deployment. I am also experienced in leading teams, fostering collaboration and empowering individuals to achieve their best work.

I love the thrill of improving things with code and the satisfaction of seeing my work being used on a high scale. I take pride in creating solutions that are reliable and efficient, and I am always looking for ways to improve my skills and knowledge.

Experience

Senior Growth Software Engineer
RD Station

Aug 2023 - Present (9 months)
• Working with product led growth, on a squad focused on entry level clients. The main goal is to increase the number of paid customers and also the new customers count.
• Using Rails for the backend and React for the frontend
• Creating AB experiments, and changing the customer journey finding for triggers and opportunities to reach our goal
• Measuring each experiment using segment, mixpanel and hotjar

Senior Software Engineer
Loft

Nov 2021 - Mar 2023 (1 year 5 months)
• Developed and maintained microservices using Node, Typescript, NestJS and AWS
• Designed system architecture and implemented technical solutions to meet business requirements
• Collaborated with cross-functional teams to ensure successful project outcomes
• Participated in code reviews to ensure code quality and maintainability
• Mentored and supported team members to ensure their continued growth and development
• Delivered high-quality, scalable software solutions on-time and within budget

Software Engineering Manager
Gocase ®

Jan 2020 - Nov 2021 (1 year 11 months)
• Led and managed a team of software engineers to develop and maintain efficient, high-quality products using Ruby on Rails
• Facilitated team development and growth through regular feedback, coaching, and training opportunities
• Oversaw recruitment processes and hired top-tier talent to join the team
• Improved cost efficiency and effectiveness by streamlining processes and optimizing resources

• Collaborated with stakeholders to develop and execute strategies aligned with business goals and objectives

Senior Software Engineer
Gocase ®
Sep 2018 - Oct 2021 (3 years 2 months)
During my time as a software engineer at Gocase, I was responsible for developing and maintaining their backoffice systems using Ruby on Rails, hosted on AWS and monitored by APMs such as New Relic and Datadog. I followed best practices such as unit testing, TDD, and code coverage to ensure that the systems were reliable and efficient.

I was also involved in cost reduction and cost management in AWS, which involved tasks such as selecting the right size instances and databases to ensure optimal performance while keeping costs under control. I was in constant contact with internal and external stakeholders to understand and implement their requirements in the best possible way, and negotiated with the business to prioritize between business and software needs.

During my time at Gocase, I developed several key systems, including the tax system which dealt with the complex Brazilian tax rules. I also oversaw ERP integration, and 3rd party carrier integration.

Software Engineer
Gocase ®
Aug 2016 - Sep 2018 (2 years 2 months)

Junior Software Engineer
Gocase ®
Jun 2015 - Jul 2016 (1 year 2 months)

Full Stack Developer
Bome
Jul 2014 - Feb 2015 (8 months)
As a full stack engineer at Bome, I have gained experience in developing web applications using technologies such as Laravel, HTML, CSS, and jQuery. During my time at Bome, I was tasked with developing a dashboard to manage the mobile app content and store data about users and partner establishments.

Education

Estácio
Bachelor's degree, Sistemas de informação
2013 - 2016

freeCodeCamp
Full Stack Web Development Certification, Computer Software Engineering
2016 - 2016

Licenses & Certifications

Shaping up with Angular.js - Pluralsight

Docker para desenvolvedores Ruby on Rails - Udemy

Rocking Kubernetes with Amazon EKS, Fargate, And DevOps - Udemy
UC-d3ca481c-ea7f-4a5a-81f0-433e4a9c031b

Skills

Ruby on Rails • Amazon Web Services (AWS) • SQL • React.js • TypeScript • NestJS • RabbitMQ • A/B Testing • styled-components • Team Leadership

Honors & Awards

1st Hackaton Gocase - Gocase ®
Sep 2019
