ABOUT ME

I'm Diego Batista, a software developer with a degree in Computer Science from the Universidade Federal do Mato Grosso (UFMT). Currently, I work at SIS Innov & Tech, where I'm responsible for designing, developing, and implementing technological solutions to meet our clients' business needs.

Throughout my career, I've developed robust skills in Java and JavaScript, as well as proficiency in software development tools such as Git and JIRA. I also place a high value on teamwork, analytical thinking, and problem-solving, making me a valuable asset for any software development project.

I've a passion for technology and innovation, and I'm always seeking new ways to enhance the efficiency and usability of the projects I work on. I stay updated on the latest trends and practices in software technology to provide increasingly effective solutions for our clients.
