PROFILE

I'm a software engineer with over 5 years of experience in fullstack development, passionate about creating high-quality web and mobile applications. I have successfully delivered various complex projects, including a cardiology clinic app, a supermarket network system, a comprehensive scheduling and exam portal for a medical company, an internal project management application, and a blockchain smart contract project for Web3.

EXPERIENCE

luuanfaria.dev - Fullstack Developer

August 2021 - Present - Remote
Founder and Software engineer, responsible for delivery projects in frontend and backend development, ensuring seamless integration and functionality.

VoxAI - Fullstack Developer

November 2023 - February 2024 - Remote
Developed the first demo of the drive-thru automation project, with voice transcription and focused on performance with Javascript, Typescript, and React.

Lambda3 - Fullstack Developer

October 2022 - October 2023 - Remote
Develop robust and tested applications, applying my React, TypeScript, Jest, Zod, Node, and NestJS knowledge. My work involved creating efficient solutions and ensuring high quality through rigorous testing. Furthermore, my experience at Lambda3 has provided me with continuous learning and skill enhancement as a Fullstack Developer.

TeamSix - Fullstack Developer

February 2022 - October 2022 - Remote

My contribution at TeamSix played a pivotal role in the success of the web application, providing me with valuable exposure to a wide array of technologies and strengthening my proficiency as a fullstack developer with React.js, TypeScript, Node.js, Javascript, and SQL.

React Native Developer

August 2021 - January 2022 - Remote

Responsible for the architecture, UX/UI, and mobile application development in React Native, using Expo, Typescript, NodeJs, and Express.

e-Core - Frontend Developer

December 2020 - June 2021 - Remote

Demonstrating my expertise in React and my ability to work effectively in a collaborative team environment.

EDUCATION

University of People

2024: Computer Science, Bachelor Degree

CERTIFICATIONS

Clean Code & Clean Architecture

2024: Branas.io

React: State Management with Redux

2022: Alura

Continuous Integration & Continuous Delivery

2022: Alura

SKILLS

Programming Languages & Technologies

JavaScript, TypeScript, React, Redux, NextJS, NodeJS, React Native, Solidity, Swift, Jest, Cypress, Testing Library, PostgreSQL, MySQL, MongoDB, Firebase, CSS, HTML.
