b.g4briel@gmail.com | https://www.linkedin.com/in/gabriel-bezerra-255b168/

Equipped with extensive experience in creating various types of systems, from conception to business rules, with teamwork and problem-solving skills. Professional with over 15 years' experience in web systems development. Task-oriented, constantly seeking to improve skills and contribute to successful projects.

EXPERIENCE

Senior Software Engineer   Apr 2022 - Present
AjaxTI, Fortaleza, Brazil

- Praised for quick professional and personal integration, as well as efficiency in solving problems, even under pressure
- Fast learning to maintain and create several systems for several clients, helping them save time and at least $10 million a year
- Technologies: .NET C#, SQL Server, Oracle, MVC, GIT, React, Rest API, jQuery

Senior Software Engineer   Nov 2020 - Apr 2022
CIPP S/A, São Gonçalo do Amarante, Brazil

- With new challenges in a dynamic environment and at the head of the development team
- Working in a very pressured team, with tight deadlines, to replace legacy systems and keep the port running without interruption, decreasing to 0 days of unavailability
- With adjustments and the creation of new systems, it has been possible to improve efficiency and stability. The port broke its cargo handling record (an increase of 40.7%).
- Technologies: .NET C#, SQL Server, WebForms, MVC, GIT, React, Rest API, Docker, jQuery

Senior Software Engineer   Jul 2013 - Oct 2020
Secretaria Municipal das Finanças de Fortaleza - SEFIN, Fortaleza, Brazil

- Good relationships with clients and solving their problems in a versatile and intelligent way
- Development of robust applications, integrating new technologies with legacy systems, aiming for high availability and performance
- Increase in municipal revenue by more than 10% in one year and a 356% in invoices issued in 4 years.
- Technologies: .NET C#, SQL Server, Oracle, MVC, TFS, Rest API, MSMQ
