PROFESSIONAL EXPERIENCE

Anheuser-Busch InBev - Mouts IT *08/2022 – 05/2023 | 08/2023 - Up to now*
Position: Tech Lead and Senior Software Engineer

At AB InBev, I initially held the position of full-stack developer, contributing to a project centered around HR KPIs for employees. Presently, in my capacity as a tech lead, I am engaged in a sensory project. This project involves evaluating commodities, such as beer samples, and providing feedback.
Technologies utilized encompass Typescript, NestJs, NextJs, Service Bus, Redis, MsSQL...
Our methodology adheres to SCRUM principles.

Nestlé - Mouts IT *05/2023 – 08/2023*
Position: Senior Software Engineer

Technologies included Typescript, NestJs, Jest, RabbitMq, MsSQL...

Ambev - Mouts IT *03/2021 – 08/2022*
Position: Senior Software Engineer

At Ambev, I held the position of frontend engineer. The project's objective was to establish a more efficient process for purchasing commodities.
Technologies utilized included Typescript, ReactJs, Jest, AgGrid, Styled components...
Methodologies employed encompassed SCRUM and Kanban.
