I'm Paulo, a passionate software engineer with over 10 years of expertise in front-end web development with a great eye for UX design. My core focus is translating design concepts into exceptional user experiences while ensuring the best performance. I have a strong record of collaborating with cross-functional teams, including designers, product managers, and developers, to deliver outstanding results in startups, big companies and public service. I'm in progress to becoming a specialist in my core area.
