WORK EXPERIENCE

2024 – 2024
BUSINESS INTELLIGENCE ANALYST UPFLUX PROCESS MINING - IA | SMART PROCESS LTDA

- Development of dashboards in (Accounts Payable, Accounts Receivable, Procurement to Pay (P2P)) for customers to extract value from event log data from the customer's ERP.
- Insights into process improvement, identify expansion opportunities in accordance with customers' strategic objectives
- Platform configuration with construction of dashboards, rules and indicators
- Survey of opportunities to improve operational efficiency using ProcessMining and Artificial Intelligence
- Backlog, deadlines and scope management with the development and product team.

Tools: Jira, Notion, Upflux.

2020 – 2024
DATA ANALYST - SUPPLY CHAIN BAUER TRANSPORTES LTDA

Conducted a detailed analysis of the processes and dentified areas for improvement.
• Managed purchase orders with suppliers.
• Prepared and analyzed PowerBI reports to provide conclusions, suggestions, and insights supporting decision-making in Transportation operations.
• Responsible for implementing and managing data in the business, directly impacting strategic decision-making and business intelligence, in addition to contributing to the effectiveness of Logistics and Purchasing operations.
• Participation in the construction of Prycing Strategies, working on the extraction, processing and analysis of related data.
• Implementation of automated spreadsheets and operations dashboards in PowerBI, facilitating stakeholders in the search and agility of information.
• Monitoring performance indicators, identifying operational gaps and directly supporting the construction of strategies to mitigate operational risks and losses.

Improvements: Facing challenges in transporting goods, I decided to innovate by creating an automated spreadsheet. Integrating data from toll and fuel APIs, along with internal compensation and expense information, I developed a decision-making panel with the ideal freight price, dynamically adjusting the profit margin. The results were remarkable, with savings in operational costs and competitive pricin boosting logistical efficiency, resulting in a substantial increase in revenue.

2018 – 2019
BUYER MRV ENGENHARIA E PARTICIPAÇÕES S/A

• Decision making on purchasing based on PowerBI data.
• Responsible for implementing and analyzing price quotation maps, through the Strategic Sourcing Methodology and RFI, RFQ and RFP processes.
• Prioritized orders and demands of 30 complex builidngs in construction.
• Monitored supplier performance, addressed issues, and ensured the timely availability of materials.
• Management and monitoring of Supplier data by Category, Price and Quantities charged, in addition to data from signed contracts, applying necessary analyzes and interventions that guarantee the business strategy.

Main improvements: Restructured the solid waste disposal supply chain. Reduction of R$60 thousand/year in the Nylon cable ties portfolio

2018 – 2018
IMPORT AND SUPPLY INTERN THYSSENKRUPP ELEVADORES S/A

• Processed and monitored swifts, letters of credit, commercial invoices and packing lists; Validation of invoices with orders.
• Communicated with freight forwarders and customs agents to arrange and manage inbound shipments.
• Contact and interactions with international suppliers in Latin America, Europe, Asia and the United States.
• Ensured all documentation complied with local and international legal requirements.
• Managed customs processes according to current regulations.

• Weekly exchange rate closing for payment of international suppliers; Monitoring and checking exchange rates with the financial department and stock broker
• Air and sea freight quotes with forwarders. Via email. Hiring and subsequent booking with operators

Main improvements: The company's financial sector opened several tickets and I took the initiative to check them, caught any inconsistencies in payments, contacted suppliers, confirmed the information and requested a refund. I sent the payment receipts to the finance director - I recovered about 1 million dollars in duplicate payments to suppliers

2016 – 2017
LOGISTICS INTERNSHIP - AUDIT SPRINGER CARRIER S/A

Responsible for carrying out operational activities in the Logistics area, with a focus on Outbound and freight auditing.
• Verification and audit of freight invoices received via EDI in the SAP-TM (LE-TRA)
• Freight expense allocations by cost centers, and freight releases of returns in the SAP system. Opening requisitions and purchase orders for payment of freight.
• Analysis of reverse logistics requests and monitoring of returns with carriers.

2013 – 2016
LOGISTICS ANALYST BAUER TRANSPORTES LTDA

• Collected, logged, and monitored all shippments data
• Sent shippment status updates to customers.
• Provided vehicle documentation for drivers
• Verification of invoices, issuance of cargo transport bill and cargo insurance.
