Skills

- JavaScript | TypeScript | ReactJS | NodeJS | Express | APIs | Python | Git | GitHub | HTML | CSS | C++ | C | SQL
- MaterialUI | Styled Components | BootStrap | TailWind | Figma | Agile Methodologies | Clean Code | Design System
- Software Engineering | Frontend | Backend | Full-Stack | English, Spanish , Portuguese – *All professional proficiency or above*

Experience

FullStack Developer   **Smobili**   *Remote*   **03/2023 - Present**

- Led development teams in the creation and deployment of full-stack web applications.
- Proficient in software development practices: version control, GitHub Actions, unit testing, integration testing, and CI/CD pipelines.
- Experienced in the software development lifecycle from conception to deployment.
- Developed data pipelines and applications using Python.
- Built responsive web applications using React and JavaScript.
- Demonstrated strong database design skills with SQL and NoSQL databases.
- Utilized Tailwind and Bootstrap for front-end development.
- Improved UX/UI design, resulting in a 50% increase in user engagement.
- Optimized code and assets to reduce app loading time by 30%.

Skills: Databases · Firebase · Web Services API · Full-Stack Development · ReactJS · NodeJS · Javascript · SQL · noSQL · Python · TailWind · BootStrap · CI/CD · Unit Test

Frontend Developer   **Maracatech**   *Remote*   **11/2022 - 02/2022**

- Designed and implemented enterprise fintech applications of Brazilian largest companies, driving monthly revenue of $ 1.9 million and saved in total over $ 8.98 million using Javascript, ReactJS, NodeJS, Python, SQL.
- Integrated and Developed a solid Design System that provides a solid and consistent life cycle. This Design System allowed scalable automation that saved crucial time.
- Supported projects with program requirements through Figma, and for the design used Material UI, Styled Components, and Responsive Web.
- Hands-on experience with APIs, since connecting the front end to Securely implement authentication with JSON Web Token.
- Created an API for testing until the official one is released
- Experience with Startup
- Skilled at mentoring junior developers

Skills: User Experience (UX) · React Hooks · Material-UI · npm · Figma · React.js · Node.js · TypeScript · GitHub · Git · JavaScript · HTML5 · CSS · Python · Javascript · Web Services API ·

Frontend Developer   **STRATA Consulting**   *Remote*   **01/2022 - 09/2022**

- Led the design and development of multiple enterprise-level, driving all processes from the software requirements until implemented using the latest technologies of ReactJS, NodeJS, Figma, and Styled Components.
