Summary

I'm a full-stack developer. As a developer, I have some experience in React and NodeJS using both Javascript and Typescript languages. I have been working on huge applications, creating new ones, and right now I'm developing my skills studying jest, react-testing-library, and Graphql.

React js | Node js | Javascript | Typescript | Redux | Redux-Saga | Context-API | Material UI
Styled-Components | MongoDB | MySQL | CSS | HTML
