João Emilio Seixas

SOFTWARE ENGINEER

Profile

With over 4 years of hands-on experience, I excel in full stack web development, specializing in JavaScript, TypeScript, Node.js, and React. Proficient in Nest.js, AdonisJS and Next.js, I deliver scalable solutions. Expertise in relational and non-relational databases, Docker for streamlined operations, and AWS Lambda for serverless architectures. Dedicated to high-quality code, innovation, and collaborative environments. Ready to enhance your team with dynamic and innovative solutions.

Employment History

React native Developer, TopCorretores, São Paulo

JANUARY 2022 — JUNE 2022

Full Stack Engineer, DSB, São Paulo

AUGUST 2022

Software Engineer, Zig The Global Fun Tech, Feira de Santana

JANUARY 2024 — PRESENT

Education

Full-Stack Web Development Course, RocketSeat Coding School, São Paulo

JANUARY 2021 — DECEMBER 2021

I completed an intensive full-stack web development course that equipped me with skills in front-end and back-end technologies. The program focused on modern tools and frameworks, enhancing my ability to design, build, and deploy dynamic web applications. Through hands-on projects, I gained proficiency in creating responsive interfaces with HTML, CSS, JavaScript, and React, and mastered server-side development using Node.js, Express, and database integration. Additionally, I developed expertise in API design, deployment, and cloud services, ensuring a comprehensive approach to web development.
